ADVERTISEMENT.

In presenting the 5th edition of the Louisville Directory, and the 1st of New Albany, the compiler has to offer an apology to the public, for the long delay of the work. The untoward circumstances with which he has been surrounded have rendered it impossible for him to publish it sooner; some, if not all, of those circumstances are known to the public; it is, therefore, unnecessary to particularize them. He has in consequence of this delay, sustained a heavy pecuniary loss, besides increasing greatly the amount of his labor—in order to keep up with the removals, changes of firms, and the coming in of new citizens.

The present edition will be found to contain a much larger amount of names than any preceding work of the kind, and he flatters himself that it will be more perfect in its orthography and the division of firms, that are in existence; and should any errors be found, after it is published, he will correct them in a supplement, which he intends to publish soon after the issuing of this work, and furnished to subscribers gratuitously; and he, therefore, requests those citizens whose residences may have been stated erroneously, to inform him of it, and he will most cheerfully correct them.

In justice to himself and his friends, he cannot permit the the present favorable opportunity afforded him to pass, without acknowledging his thanks for the liberal support given to his previous publications, and hopes the edition now presented will not only meet their approbation, but also an increased share of public patronage. The Publisher begs leave to refer the public to his advertising department, which will be found in the index.

The first of these is the fact that the British Empire
was not a single entity, but a collection of separate
kingdoms and colonies, each with its own laws and
customs. This was particularly true of the colonies,
which were often governed by local assemblies or
governors appointed by the British Crown. The second
factor was the fact that the British Empire was not
a homogeneous entity, but a collection of different
peoples and cultures, each with its own traditions and
values. This was particularly true of the colonies,
which were often populated by people from different
parts of the world. The third factor was the fact that
the British Empire was not a static entity, but a
dynamic one, constantly changing and evolving over
time. This was particularly true of the colonies,
which were often the site of new ideas and
innovations.

Bethel, (colored people's) Walnut near 9th.

The Reverend Abraham Long, superintends the churches for the colored people.

In the foregoing statistical church tables, I would beg leave to remark that all the churches, so far as I am informed, receive persons that are minors, with perhaps some two or three exceptions; whether they are admitted to the same privileges of adult members, I am at this time unprepared to say.

The Catholic church includes all that have been baptized in the church, consequently their numbers are greatly increased over the other churches, who count only those who hold communion with them.

The Evangelical Union, is, I understand, a distinctive title, assumed by a portion of the Lutheran church, without any material or important change in the tenets from the old order. I am informed in this new order, members are confirmed at 15 years of age; and in one of the churches under this head, that the number of communicants would be considerably less than the one given, making the actual number of communicants about 500.

The Lutheran church gives the communicants only.

The Israelites are erecting a Synagogue, and are at this time, I am informed, unprovided with a teacher. I am told none but males are counted as members.

It will be seen, from the above table, that the advancement in the value of property in the city is steady—the improvements in the last two years have been very great. This continued prosperity may be attributed not so much to the superabundance of money, or the visionary schemes of speculators, as to the influx of capital, population, and the indomitable enterprise and industry of our citizens.

The amount of money invested in improvements, some of which are great ornaments to our city, in the last two years will not fall short of one and a half millions of dollars. Giving to each house an area of twenty feet front, the buildings erected in the time above stated, would cover rising three miles of ground. In my last Directory published in 1843, I give an estimated population of 28,403, out of which I had about 5,700 heads of families allowing to each head five persons, would make the population 28,500, I then made by count upwards of 26,000, and believe the amount I gave was correct. By the same rule I get at the population in my present publication, and the population in 1848 may be safely set down at 45,000, as I have rising 8,000 names in the Louisville Directory.

BULL'S

Compound Concentrated Fluid Extract

SARSAPARILLA,

Is unsurpassed in the cure of Scrofula or King's Evil, Rheumatism, obstinate Cutaneous Eruptions, Pimples or Pustules on the face, Blotches, Biles, Chronic Sore Eyes, Ring-Worm, Tetter, Scald Head, Cancer, enlargement and pain in the Bones and Joints, stubborn Ulcers, Syphilitic Afflictions, Jaundice, Liver Complaint, diseases arising from an injudicious use of mercury, and from exposure and imprudence in life, and Incipient Consumption. In short, it is a valuable remedy in Chronic Diseases of the Stomach and Digestive Organs, Dyspepsia, General Debility, and all kinds of Chronic Diseases, arising from a derangement of the system and impurities of the Blood. It is invaluable as a cleansing Spring Medicine.

This preparation not only contains the highly concentrated virtues of the Sarsaparilla, but of several of the most safe, efficient medical agents in the *Materia Medica*, for the cure of the above diseases.

The following testimonials of its good effects are offered to the public:

Louisville, March 7, 1848.

MR. JOHN BULL—DEAR SIR: I must ever entertain the liveliest feelings of gratitude to you, for the incredible benefit and happy relief given me by your wonderful Compound Extract of Sarsaparilla. I do not write you this for publication, unless you may put it to such purposes; but write it to you simply to express a feeling of kindness to you, with which my bosom will, until the day of my death, remain full. The long and afflicting Rheumatism which beset me for years, and which the simple followers of the healing art term Chronic Rheumatism, was a thousand times worse than any thing else to which flesh is heir. The neuralgic pains and the general debility which ensued therefrom, compelled me to give up action, quit my business, a pleasure and a profit to me—and the mental pain arising from my bodily infirmity rendered me the most

miserable of all my Creator's handiwork. The most learned of our physicians in my judgment, do not know the philosophy of this disease, but your preparation of Sarsaparilla seemed to arrest my pains, and stop the ravages of disease immediately; it has made a cure in my case, and I believe will in all cases, for nothing else could have relieved me; you certainly should take great credit to yourself as the author of this medicine, for the appellation of quackery cannot apply to it; it answers the end for which it is given, and will effect a cure in Rheumatism, at any stage whatever of that disease. I shall be pleased to serve you at any time, in any way, and can never stop thanking you for the benefit I have received at your hands, and I would go a journey of twenty miles to see one afflicted with Rheumatism as I was, to give him a bottle of your medicine, for I know it would give relief, and plant a rose where tears a thorn. Ever yours, at command,

CHARLES W. SMITH.

From Dr. J. M. Moore.

MR. J. BULL: I have no hesitation in saying that I believe your Sarsaparilla to be the best article ever manufactured for the cure of Scrofula, Syphilis, and many other Cutaneous and Glandular Affections, having used it with entire success in a number of the above cases.

JAMES M. MOORE, M. D.

Louisville, Dec. 26, 1847.

This medicine is daily grappling with disease through the Western country, restoring to blooming health and youthful vigor, the sick and afflicted—nay, those that are grievously tormented. Certificates are teeming from all directions, from men of truth and high moral standing, placing it, from its intrinsic worth, the very best of all remedies ever before the public.

Sold wholesale and retail by

JOHN BULL,

Sold by most of the Druggists in the city and country.

TO THE AFFICTED.

Be it known to all unfortunate victims of indiscretion, that at the HUNTERIAN DISPENSARY, only, can be obtained all the most powerful and newly discovered remedies prepared by the most able professors and chemists of the world, for the total and speedy annihilation of all diseases arising from impurity of the blood and contracted in an unguarded moment. To those who desire health, in preference to misery and degradation, with a perfect and lasting constitutional cure, this information is respectfully given for the benefit of themselves and suffering humanity at large, when all other earthly means have been resorted to in despair.

Remember all preparations are warranted; and all genuine have the written signature of

The Livingston County Plough,

MADE BY

B. F. & H. D. AVERY,

*At Jabez Baldwin's Foundry, on Main street,
Louisville, Ky.*

This is a deep cutting and perfect turning Plough. It is rarely choked with litter, and sheds the adhesive soil from the mould-board, when nearly every other form of plough has failed to do so. We will take pleasure in showing our work to all persons visiting the city who feel an interest in the cultivation of the soil. Planters from the South are particularly invited to call upon us.

✂ The foregoing list comprises all the boats out at the time the list was closed, since which time I understand it has been ascertained that some new boats have come out, and several others are on the stocks and will soon be out—which will make near 450 boats—and tonage about 100,000. I will not attempt an estimate of the amount of cost, for building or running—the number of men employed, or the amount of business they do annually, as the reader will be equally if not more capable than myself, to approximate much nearer to the truth.
